She appeared quicker than was antici-She appeared quicker than was anticipated—namely, the day after we were warned. Our captain had formed a plan which will develop itself further on. We had on board twenty-two men all told, but only seven of these were on deck under orders when the pirate headed for us.

On she came, her red flag floating in the breeze, and about a half rod distant when her daring crew jumped on board and quickly overpowered these on deck. But this was the signal for our "reserve" to act, and we did.

In a dead calm on the Pacific the bark Forrest, homeward bound from China, was drifting towards the Island of New Ireland, and when about three miles from land eight long cances pulled off. Naked savages were soon coming up on our port when her daring crew jumped on board and quickly overpowered these on deck. But this was the signal for our "reserve" to act, and we did.

The trading brig Petrel left Charleston, bound for the Cape of Good Hope, in June, 1876. The weather was fine for the first two weeks, but after that it clouded in it, and threatened a severe storm for several days, and at last it burst upon us with all the fury it was capable of. The sea rose mountains high and our vessel was tossed about as though it were a cork.

We had rected the sails and secured the

hatches at the beginning of the storm, so that we were kept prisoners below, every one doing his best to keep from being pitched about with the awful lurching of

Wrapped in a mackintosh I became a silent speciator of the grandeur of the scene. For a while all was darkness: then the flashes of the lightning, with the mingled roll of thunder, seemed to pierce the very skies. Turning from a blinding flash I discovered a dark form at my side, while a pleasant voice said:

'A wet night, my friend.'

Giad of companionship I heartily assected. For a time our conversation was of the horrors of the sea and the periis of early machines, when suddenly the stranger said:
